Woods House Conservatory's
Early Childhood Music
Music Education Program

Welcome to a lifelong musical adventure! Emphasizing Kodály method and philosophy of music education. Woods House Conservatory of Music's Early Childhood Music Education program initiates a lifelong journey into the beautiful world of music and musicianship.

Children engage in age-appropriate singing, playing, dancing, guided and free movement, active listening and improvisation. Through music games and play, children discover the basic musical elements in the context of a fun-filled and carefully sequenced curriculum. These students will expand their listening skills, engage in fun music reading-readiness activities, discover their musical self and find their own voices. These young musicians will also enjoy the social benefits that making music together best provides.

The classes are designed for children ages 1 to 5 years old and their parent or caregiver to explore music. Each 45 minute class begins with the **Hello Song** and continues on an exciting journey exploring music through guided rhythmic and tonal exercises. Then moving to improvisation activities, the class explores sounds and movement through guided singing, movements and dances. Free dance and free instrument play follow improvisation. The guided portion of the class ends with a lullaby and the ritual **Goodbye Song**. Each class concludes with a 10 minute segment of free and guided instrument play.

Early Childhood Music Classes
